LIST OF ABBREVIATIONS

List of Abbreviations

ANC – Ante Natal Care

AWD – Acute Watery Diarrhea

BRCiS – Building Resilient Communities in Somaliland

CAHW – Community Animal Health Workers

CAP – Community Action Planning

CAV – Community Adaptive Villages

CfW – Cash for Work

CHLE – Candlelight

CMAM – Community Management of Acute Malnutrition

CRISP – Community Resilience in Somaliland and Puntland

FCA – Finnish Church Aid

FGM/C – Female Genital Mutilation/ Cutting

GBV – Gender Based Violence

IDPs – Internal Displaced People

IYCF – Infant and Young Child Feeding

MAM – Moderate Acute Malnutrition

NFIs – Non-food Items

OPD – Outpatient Department

OTP – Outpatient Therapeutic Programme

PHE – Public Health Engineering

PHP – Public Health Promotion

PLW – Pregnant and Lactating Women

PNC – Post Natal Care

PWD – Persons with Disabilities

SAM – Severe Acute Malnutrition

TVET – Technical and Vocational Education

UCT – Unconditional Cash Transfer

USADF – United States African development foundation

VSLA – Village Saving and Loans Association

WCBA – Women of Child Bearing Age

1. A WORD FROM THE CHAIRMAN

It is my pleasure to share with you, through the pages of this report, the achievements of CLHE in the year 2018.

Another year has ended, marking another milestone in the journey of the organization towards its mission of changing the lives of many people towards a better future. The said year has been another busy period for Candlelight.

The achievements recorded in this report would not have been realized without the dedication and support from all of us: funding agencies, collaborating government agencies, staff members and communities.

I would sincerely like to thank our funders for providing and maintaining their support to our programmes, and our staff who diligently contributed to the realization of our objectives, and the communities for their receptiveness and cooperation, and government counterparts for their supportive role.

Ahmed Ibrahim Awale
Chairman

2. A WORD FROM THE EXECUTIVE DIRECTOR.

Dear Partners and Candlelight Staff

Thank you for making 2018 yet another remarkable year for Candlelight! This year marked the 25th year of service for the organization. Our dedicated staff has done an incredible job at expanding our outreach while strengthening our programs and services.

We have once again been able to increase our services delivered directly in the field to cover new areas not charted by the organization in the past. We have now our footprint in all regions of Somaliland!

Our on-going goal is to keep our overhead low while increasing our service in the field, and you truly make this possible.

Thank you for wholeheartedly being a partner with Candlelight, and for the staff, thank you for being a part of the success story of the organization.

We are looking forward to much more in 2019!

Abdirizaq Bashir Libah
Executive Director

3. WHO WE ARE

Candlelight is an outstanding organization that has, over the last twenty four years, effectively partnered with communities in Somaliland to improve their quality of life, through development and humanitarian interventions that support sustainable community development initiatives in line with its core mission.

Candlelight thematic focus ranges from Environment and Livelihood, Education, Health and Nutrition, Emergency and Humanitarian support; with interventions in the different regions of Somaliland.

OUR VISION

Peaceful, Environmentally Conscious and Productive Society.

OUR MISSION

Building partnerships to improve quality of community lives through environmental conservation, equitable access to quality education, health and humanitarian services.

The Candlelight vision and mission will provide essential anchorage for its operations, and highlight internally and externally the desire to succeed. Success will result from matching the vision and mission with the means to pursue them.

CORE VALUES

In delivering on its mission in this strategic plan, Candlelight will uphold the institutional and ethical values stipulated here below:-

I. INTEGRITY: Honesty (including transparency and accountability), trust and openness to our stakeholders through commitment to delivering results and taking responsibility for our actions

II. EQUITY AND FAIRNESS: Embrace diversity, gender equity, impartiality and non-discrimination in all our activities and, endeavour to target the poorest of the poor.

III. **EXCELLENCY:** Confident pursuit of highest quality as our belief in what we do while warranting our persistent commitment to quality service delivery.

iv. Collaboration and team spirit: Internal and external collaboration by supporting one another, respecting one another's view, entrenching participation and making our work environment fun and enjoyable. We strive to ensure our teams have areas that are celebrated by all.

V. **COMMUNITY NORMS AND CULTURE RESPECT:** We respect community values and traditions; as well as individuality, knowledge, skills, ideas and capabilities that each employee brings to the team towards developing appropriate technologies and cost effective solutions to alleviating poverty.

4. THEMATIC/ PROGRAM ACHIEVEMENTS

4.1 Environment and Livelihoods

The bulk of the people of Somaliland are living in extreme poverty, vulnerability and affected by the recurrent droughts and other environmental disasters. They struggle to earn enough to ensure that their families have enough food to eat and get basic health care and education.

Poor rainfall performance leading to prolonged dry spells and conflicts leading to massive displacements are the main drivers of food insecurity; subsequently depleting people's sources of livelihood.

100 poor farmers were trained on best farming practices and received farming inputs of tillage hours, hand tools and seeds in Marodi Jeeh and Togdheer regions

Established, trained and supported with business start-up of \$300 per household to 10 VSLA group in Togdheer region

Candlelight's environment and livelihood programme embraces a range of innovative initiatives that help men and women build sustainable, secure and resilient livelihoods and progressively climb out of poverty and vulnerability.

Distribution of 990 breeding Goats (Restocking) to 10 0 pastoral drought affected households in Togdheere region

Improved dry land farming techniques training for conservation agriculture and post-harvesting crop in Sheikh

Agriculture (Irrigation and Rain-fed) is a key source of economic activity, employment, and exports. In 2018, across all our livelihood and environment projects, we contributed to improving food security and livelihoods of approximately 900 households directly and 6,300 people indirectly.

Out of these approximately 56% were female. Households and communities are supported to improve their economic well-being and resilience through smart agriculture and economic empowerment projects.

These included trainings in good agronomic practices, Business skills and value addition (Sisal products), tillage hours and seeds support, animal (goats and sheep) restocking, formation of VSLAs and cooperatives, training and equipping Community Animal Health Workers among others

Sisal plantation to increase and diversify income for women in Godaweyn, Sahil region

Rehabilitation of an earth dam with capacity of 27300m3 of water for irrigation in Magaalo-Cad, Awdal region

Improvements in environment, land use and management are needed at every level. In 2018, Candlelight supported the rehabilitation of degraded rangelands, Soil and Water conservation; constructing at least 4,082 soil bunds, distributing over 3000 tree seedlings to target communities. Candlelight further pursued its contribution to enhancing resilience through trainings in Disaster Risk Reduction, Community Adaptive Villages.

4.2 Education (Formal and Non-formal)

Candlelight is dedicated to improving the lives of the poor and vulnerable through formal and non-formal education and empowerment programs.

The projects featured in this report demonstrate a range of Candlelight's work to reduce poverty and vulnerability through education and skills support.

Technical and Vocational Education (TVET)

Limited technical and vocational skills is among the leading causes of youth unemployment in Somaliland. In 2018, Candlelight through its centers in Hargeisa, Burco and Erigavo supported 245 young male and female from both urban and rural Somaliland to attain demand driven technical and vocational skills. The courses offered included tailoring, beautification, metal fabrication, cookery and baking etc. These have also been supported with startup grants and assorted tool kits.

Welding trainees in practical session at Candlelight Vocational Training Center in Hargeisa

Bee keeping trainees in practical session at Xadhig-Xadhig village in Marodi Jeeh region

Graduation Ceremony for tailoring trainees at Candlelight Vocational Training in Odwayne

Formal Education

This year we have enrolled 913 children/ students in both Candlelight primary and secondary schools in Burco and Erigavo. There is a gradual increase in enrolment when compared to 2017. The capacity of teaching and non-teaching staff has been boosted to improve the quality of services offered; though more needs to be done.

Candlelight Burao Primary and Secondary School students

Literacy skills training

370 mostly female adults have been supported to acquire literacy and numeracy skills relevant to their everyday work in their households and small businesses, empowering them to make positive contributions to their households and communities.

Literacy and numeracy class session at Dawdama village in Sahil region

4.3 Health and Nutrition

For several years now, Somaliland has had persistently high rates of Female Genital Mutilation/ Cutting (FGM/C) and acute malnutrition exceeding emergency thresholds. This is mainly attributed to culture and climatic shocks including recurrent droughts, cyclones and conflicts respectively.

Community empowerment and awareness, engaging influential people/ religious leaders is key towards ending practice. This year, Candlelight started piloting the Community Led Approach which seeks to empower communities and work with them towards changing the harmful. Several key stakeholders including religious and community leaders have been trained and supported to raise awareness on the harmful effects of the practice.

Refresher training for community facilitators on TOSTAN Approach for abandonment of FGM practices in Hargeisa

Anti-FGM youth group from universities students meeting with Candlelight FGM project team in Burao

Candlelight's Community Management of Acute Malnutrition (CMAM) program aimed at providing a complete package of components including OTP for SAM without complications,

inpatient care (referral) for SAM with complications to stabilization centers or other health facilities, supplementary feeding for MAM cases and community awareness/outreach.

The package also includes the provision of Unconditional cash for acutely malnourished pregnant and lactating women (PLW) to support access to food and provision of hand washing soap to promote good hygiene and sanitation practices.

To contribute to strengthening the capacity of service providers, Candlelight trained health staff from the health facilities and mobile teams. These were trained in Integrated Management of Acute Malnutrition guidelines/protocol. Community health mobilisers from selected program areas were also trained in community mobilization and awareness raising.

Using the mobile teams, 4,942 children were screened for malnutrition. 355 SAM and 1902 MAM cases were treated, 3828 OPD under 5 years and 4426 OPD over 5 years treated with minor illness. During the same period and in collaboration with district health departments and facilities, 2196 children (898 male and 1298 female) were vaccinated with communicable diseases.

A total of 2,911 PLW and WCBA (1775 ANC and 1136 PNC) were supported with services including provision of micronutrients, vaccination against tetanus, and treatment for minor ailments, training in IYCF practices and unconditional cash. At least 3,302 beneficiaries received hygiene and sanitation, nutrition awareness.

Improving food security and access to malnutrition services in most vulnerable villages in Sanaag, Sool, Togdheer regions

Integrated emergency response and early recovery support to the drought affected community in Togdheer region

4.4 Emergency and Humanitarian support

Given the increased humanitarian crises in 2018, Candlelight has continued to play a leading role in responding to the crisis in a cost-effective way, reaching close to 500,000 people directly and indirectly with the majority being female.

Our emergency and humanitarian support program aims at rapid response to save lives and reduce suffering, Improving access to food, healthcare and other basic requirements and preventing and or reducing the impact of emergencies

Integrated emergency response and early recovery support to the drought affected community in Togdheer region

Integrated emergency response and early recovery support to the drought affected community in Togdheer region

Emergency Food Security and Livelihood.

Candlelight successfully implemented a Cash (Conditional and Unconditional) and Non Cash food security projects reaching out to over 1900 households affected by drought and cyclone in Somaliland. Unconditional Cash transfers were made to highly vulnerable women and men while Conditional cash transfers targeted able bodied men and women to enable them meet the basic food and non-food requirements.

The transfers based on the Somalia Cash working group rates. Conditional cash transfers provided short term employment opportunities to rehabilitate community assets including roads, rangelands.

Additionally, the programme contributed to strengthening community resilience through creation of community assets in return for food.

Non-Food Items

500 households in the far Eastern region of Somaliland were supported with non-food items to help them recover from the effects of the cyclone Sagar. Items included beddings, kitchen utensils, plastic sheets for shelter, water containers, among others.

Distribution of non-food item kits to Cyclone Sagar affected household in Xiis village, Sanaag region

Distribution of non-food item kits to Cyclone Sagar affected household in Maydh village, Sanaag region

Water, Sanitation and Hygiene

More than 40,000 households have been supported to improve access to clean water and improved their hygiene practices through our initiatives such as constructing/ rehabilitating water sources including shallow wells, berkerds, ballis, and water tanks among others.

Candlelight, with support from Oxfam also successfully piloted a Cash for Water intervention empowering communities to control and own the process, quality and quantity of water accessed by the households and communities.

In responding to Acute Watery Diarrhea (AWD) outbreaks and to keep water-borne and related diseases at bay, Candlelight supported the construction of latrines and distributed hygiene and sanitation kits containing soap, buckets and water purification tablets. Hygiene and sanitation promotion training and campaigns in the communities provided avenues to reinforce the message about personal, household and community cleanliness.

We have noticed some recognizable change towards practicing good hygiene and sanitation practices in the communities.

To ensure continuity, sustainability and proper maintenance of the interventions and facilities respectively, Candlelight has trained Community resource persons (Volunteers), Community water user committees and trained pump operators in the basics of operation and maintenance of generators, water pumps.

Rehabilitation of Berkads for livestock and humans in Cagaaray village in Sahil regions

Rehabilitation of Berkads for livestock and humans in Buqxayle village in Sanaag region

4.5 Gender Based Violence and Protection

In 2018, Candlelight scaled up our work with in protection and Gender Based Violence (GBV) as part of our commitment to prevent gender-based violence and protect vulnerable girls, women, boys, men the elderly, PWDs among others.

Protection has been mainstreamed within our emergency and development interventions. This is reflected in the way projects are designed and implemented as well.

Two days community training on GBV and child protection in Badhan, Sanaag region

Two days community training on GBV and child protection in Badhan, Sanaag region

5. ACHIEVEMENTS FOR 2018

No.	Project name	Donor	Duration	Target location	Key achievements for 2018
	Environment and Livelihood				
1.	Community Resilience in Somaliland and Puntland (CRISP)	European Union and Development Fund Norway	3 years (July 2018-june 2021)	Waqooyi Galbeed, Awdal(Cadaadaly, salahlay, Baligubadle, Borama, Baki)	<ul style="list-style-type: none"> • Vulnerability assessment in the target villages • 30 community members from Ruqi village have received two days training of Community Adaptive Villages (CAV) in Baki district in Nov. 2018. • 30 community members from Daraymacaane village have received two days training of community Adaptive Villages (CAV) in Borama district in Dec. 2018. • 33 members from 8 villages in Waqooyi Galbeed and 5 from Awdal regions have received two days community water infrastructure management training in Dec.2018.
2.	Improving Food security to build community resilience in Somalia (NORAD)	Development Fund Norway	2017 - 2020	Magaalo –cad and Magaalo- qalooc	<ul style="list-style-type: none"> • A new earth dam constructed in Magaalo–cad improving access to water for irrigation and food production. • A group of 70 local farmers formed a farmer association and shared 5.8 hectares of productive land donated by local people and also shared faming business benefits and collective manpower. • 4 Community Animal Health Workers (2 M and 2 F) trained and provided with startup kits/ tools and medicinal drugs to carryout basic animal health treatments. • 20 women milk cooperative in Magaalo cad trained in milk hygiene and milk business management
3.	RESTORE "Building Resilience in Somaliland	European Union and NRC (BRCiS)	November, 2017 – Nov 2020	Bali shire village 400 HH, Gogayso Village 450 HH,	<ul style="list-style-type: none"> • Hygiene, sanitation and nutrition public campaigns conducted in five project target villages. 1400 pieces of IEC (stickers) with ten different messages on hygiene, Sanitation and nutrition awareness messages were
